It is to be hoped, among other Solvent things, that the said Normal will do much along agricultural lines for experimentaitno at the school. The very geographical position of cundings adapted to getting facts concerning the average kinds of rops of Georgia and Alabama rather than those of Tennessee, while Dav'dson County surroundings and seils are such as to make a good experimental location for ordinary Tennessee crops.

With the completion of the Tennessee Central Railroad, Nashville, besides being centrally located, beomes connected by direct line with all parts of the state. Chattanooga is off in a corner. Nashville is more centrally located, and thus the better place for the school.

Chattanooga is convenient to reach from East Tennessee but is very inconvenient to reach from West and Middle Tennessee. The number of pared with those in Middle and West Tennessee, are almost nothing; which means that for convenience to the greatest number of Negroes of the state, Nashville is the place for location. Again, it is a good thing for state institution to be where it can to constantly under the observance of the state officials, so that its needs, A church social was given by the etc., can be intelligently presented by Stewardesses of the A.
